## IN THE ARMY NOW

By Pvt. Buster Willis

Camp Clairborne, La.  
July 10, 1942  
We're fixing up our camp. The boys are going to be here a long time or maybe we are fixing it up for some other outfit. Nobody knows. Anyway, nobody likes to get out of here. We've inherited "hutsmen" which ain't bad. Maybe they needed our tents to send overseas for the boys there. Maybe they are getting ready for us. Still nobody knows. There is just one thing that I feel sure of and that is that I have a furlough coming the first part of August and I don't want any moving or monkey business before I get those few days I have been looking forward to so long. I'll do my best to take up where "Stringbean" left off when I get to Belle Glade.

I've found a place in the regiment for Councilman Risk. He won't have any worries about water here either. As much and as hard as it rains here, water is not a first class water supply is enough rain barrels to catch enough ahead for a few days. It'll rain again and it'll rain again and it'll rain again. I'll have to devise some way to shade his sun while water, however, or the sun will dry it up as hot as it gets when it isn't raining.

But the water situation would just be a sideline. His main job would be running the regimental baseball team. And we have a good one, too, but managers are so scarce that I tell her to let the team.

Can you imagine anything that would be more pleasing to the water commissioner than a baseball team that boasts two good left handed and two right handed pitchers and only two games a week to play. In addition, an infield that would be a delight to the Philadelphia Phils. Every man is fast and a good fielder. They can all hit hard and all know what to do with the ball when they get it. And also outfield sink ball. The water manager has been arranging a batting order that won't be an injustice to anybody.

And the catcher, Boy, he's a whiz. Played in the Florida State League and under old "Boily" Grimes in the Michigan State League. The whole thing about the team is that we are getting a late start, but I've talked about the team and the championship camp that we have the other teams on the defensive before we get on the field. If it doesn't win the regimental baseball championship, because it'll be for managers fault and not the teams, on paper at least. There's one thing (Continued on page 4)

## Herald Columnist Quoted In Florida Weekly Papers

**Buster Willis' Column "In The Army" Used By Russell Kay**  
Buster Willis, former editor of this paper who is in the Army and who writes the column "In The Army" for this paper, was quoted this week by Russell Kay, secretary of the Florida Press Association, in his column "To Late To Classify" which goes to all the weekly newspapers in the state. Mr. Kay uses his entire column to quote Buster's story which was published in our May 15 issue. Mr. Kay's "TO LATE TO CLASSIFY" follows:

I am indebted to Buster Willis, formerly with the Belle Glade Herald, now a member of the United States Army stationed at Camp Clairborne, for the following humorous manuscript. Buster doesn't claim authorship but states the letter was actually written by a soldier. Here it is:

Dear Buster:  
I am very enthusiastic about Army life. We're around in every morning until about 5 o'clock. This of course gives us plenty of time to get washed and shaved. By 5:15 by 5:15 we stand outside and shiver a while until someone blows the bugle. After we are reasonably chilled, we go on our way through the darkness to the mess hall. Here we have plenty of breakfast consisting of an unidentified liquid and a choice of white or rye crust.

After gorging ourselves with this delicious repast, we waddle our way back to the barracks. We have nothing to do until 7:30 so we just sit around and read latrines, mop floors, wash windows and pick up all the cigarette butts and match sticks within a radius of 150 feet of our barracks. Soon the Sergeant comes in and says, "Attention boys! We go out in the wonderful sunshine and bask while we stand six inches in water to limber up. We do this simple exercise by both touching your toes with both feet off the ground, or grabbing yourself by the hair and holding your arms length.

At 8 o'clock we put on our light park and start walking to the mountains. The light park is not to be confused with the light park. The light park includes a gun, bayonet, canteen, mess kit, cook cartridge belt, first aid kit, pup tent, canteen, mess kit, and a few other odds and ends. The heavy park has a blanket or two in it, a pick and shovel, gas mask, a change of underwear and a two-way radio.

Carrying my pack I weigh 235 pounds. Without it I'm a puny 147. So you can see I'm easy (Continued on page 4)

## Soldier On Furlough Injured In Accident

W. F. Pate, nephew of Mrs. W. C. Allen and brother of Clarence Pate of this city, had the misfortune while home on a three day furlough from Key West, to be seriously injured in a highway accident on Road 25 between South Bay and Lake Harbor.  
Mr. Pate had been visiting in Clewiston and was enroute home in his brother's car, which was blinded by the lights of an approaching car. Mrs. Allen said, he swerved into the roadside pine tree hedge. The car was badly damaged and Mr. Pate's chest crushed against the wheel. He was picked up by passersby and taken to Belle Glade. An Army ambulance was summoned from the Morrison Field and he was taken for treatment Mr. Pate and Mrs. Allen and Mac Allen and Miss Kalle Crawford were summoned to visit him there Monday. The accident occurred shortly after midnight Monday morning. He is 35 years of age, a native of Douglasville, Ga., but has made his home in Belle Glade for a number of years.

## Get That Use Stamp Or Suffer A Fine

All Florida automobile owners must have U. S. car use stamps before they can feel safe driving since July 1. The penalty is a \$25 fine. The local post office will continue to sell the stamps until July 31, stated George F. Fawcett, postmaster here. At that time the car owner will have to apply to the Federal Internal Revenue office at Jacksonville.

Use stamps are on sale now and cost \$5. The purchaser pays down the five and receives his stamp. Before affixing the stamp the purchaser must sign the car, the motorist is expected to put the make, model, engine number and state tag number of his automobile on the stamp. The front of the stamp is gummed and the serial number of the stamp shows through the windshield from the back of the stamp. The other information on the back of the stamp shows from inside the car. Service station attendants are required to place the stamp before issuing a gasoline pump for your car.

## College Students To Get Government Loans

Prospective college students of Palm Beach county may benefit through the recent appropriation by Congress of \$5,000,000 for loans to students of certain technical and professional schools which can be completed within two years, it was announced this week from the office of President Ludd M. Spivey of the Southern College in Lakeland.

"In extending a helping hand to students whose training is of such importance to the nation," Dr. Spivey said, "the government is recognizing further the importance of helping to provide in Democracy's intelligent and efficient officers."

For meeting America's urgent need for thousands of college-trained technicians and professional men.  
Under terms of the Federal Security Agency appropriation act passed June 30, loans will be made to students "in such numbers as the chairman of the War Manpower Commission shall determine." Students accepting the loans must maintain satisfactory academic standing, must agree to accelerate their program of study, and must agree to engage for the duration "in such employment or service as the War Manpower Commission or agencies" as designated by the Manpower chairman.

Fred J. Kelly, chief of the agency's division of higher education, said Dr. Spivey from Washington that loans up to the value of tuition and fees plus \$25 per month may be made under the act.

Students accepting the loans must give notes to the Treasury and the War Manpower Commission at 2-1/2 percent per annum.

It is hot as hell here. Just got a letter from Carroll Keesee (Belle Glade) in the air corps in fine. I will stop, for a while, and do some sleeping. Will write more next time. I really enjoyed your letter, just write more often.

## Call To Draft Class 1-B Men Received Here

Registrants With Physical Defects To Be Inducted In August  
It was announced here this week that this draft area has received its first call for Class 1-B registrants—those with physical defects.  
Number 1-B men to be called was announced by 7 by Miss Ruth Glavin, chief clerk of the Selective Service office here. The call was said to be for August 13. This will be quite new men. The War Department recently announced plans for drafting 1-B men for limited service during August 1.

All 1-B men who wish to volunteer for the service are given a chance to do so. Volunteers should report to Miss Freeman at the draft board office here.

A second call for white men will be made August 31, Miss Freeman said, but these men will be from Class 1-A and the total men to leave there will be 25.

The largest quota of colored men to be called will leave here the morning of July 28 when 101 men will report to Camp Claiborne for final examination. A total of 58 colored men will be called in August. All of these will be called in August. The 1-B men in colored men have gone to other parts of the country that other 60 of them are expected to leave from this board. Of course the others will report from their present place of employment.

In an effort to meet the quota called from this board the local officials have sent out questionnaires to all colored men who have been notified to report that they must prove that they are married and also prove that they are the head of a household of a previous marriage, before they will be reclassified under the recent law passed by Congress.

## Glades Women Attend Home Demonstration Camp At Lake Worth

A group of Glades women attended the annual Home Demonstration Camp at Lake Worth Casino this week as they usually do. This annual camp is arranged each year under the auspices of the Senior Council under the direction of Mrs. E. V. Barry, home demonstration agent. The women were in camp from Tuesday to Thursday inclusive, and the 4-H girls went into camp Thursday afternoon to remain until the following Wednesday. A splendid delegation of girls is expected from all Glades (Continued on page 4)

## 20 WOMEN ENROLLED IN CANTEN COOKING

Charmie D. F. Goodell, Canteen chairman of the Red Cross West Palm Beach, met with a group of local women Thursday afternoon at the local Red Cross sewing room to explain the courses required to organize a Canteen. Mrs. Luther Jones was appointed to contact qualified instructors and organize the courses. The nutrition course, after which 20 women of canteen cooking will be taught.

About 20 women enrolled in the course and will arrange meeting dates as soon as the instructor can be secured. Anyone interested in the organization of the canteen may write Mrs. Jones for further information.

## KNOW YOUR INSIGNIA

The basic emblem of Civilian Defense consists of the triangle with the words "KNOW YOUR INSIGNIA" in the center.

## CHINA RELIEF FUND AMATEUR NIGHT IS A BIG SUCCESS

Amateur night, sponsored at the Community Methodist church Tuesday night by the Junior Women's Club for the benefit of China, was a success. The program was a high success. By Mrs. J. Winfield Mosley, chairman of the Chinese Relief Fund. Approximately \$50 was realized from ticket sales and an additional \$15 was donated.

## Local Golf Club Nears Completion: "Dubs" Get Break

The Country Club of the Everglades golf course located just this side of the dike is beginning to take form. Hundreds of trees and shrubbery have been planted and the course is being laid out to look like a definite thing. Dick Wilson, designer and constructor, is working every day when weather permits to finish the course and when approached for a story on his progress had the following to say:

This course is being constructed with the game of all types of players in mind. The high handicap players who support the golf course, so the very important that in the design of the holes they can have problems to confront them with to a severe penalty.

## Birth Certificates Becoming Important

American citizens have begun to realize the advantage of having birth certificates. This has been publicized by the U. S. Bureau of the Census and by state health and census departments for many years. However, the majority of people failed to take the advice seriously until they faced with the necessity of proving their birth before they could enter the Army or Navy, or before they could secure a defense job which required that a birth certificate be furnished.

Citizens not having birth certificates should apply to the Bureau of Vital Statistics of the State Board of Health in the state of the state. Until 1940 it was a very simple procedure to get a delayed birth certificate. Proof of birth consisted merely of an affidavit by a relative or friend. Under these simple requirements occasionally happened that fraudulent certificates were filed which were used for improper and illegal purposes.

In 1941 new and stiffer requirements for obtaining a birth certificate were put into effect over all the nation. Three facts must be shown on every birth certificate:

1. Exact day, month, or year of birth.
2. Exact place of birth.
3. Names of parents, including maiden name of mother.

There must be proof of written evidence, dating from a time as near as possible to the claimed time of birth. Affidavits alone are no longer sufficient. The Bureau of Vital Statistics is earnestly requested to be patient at the time of the investigation. It is caused by an unprecedented number of applications reaching the Bureau and by the requirements for utmost accuracy.

Persons who have relatives in overseas service can obtain a few sheets of the stationery by calling at the post office. After the supply at the post office gives out they will be put on sale at local stores. Postmaster Farnall has a large supply on hand and will give it out so long as the supply lasts; however, only three sheets will be given to any one person within one week.

## Chapman Advocates A Heavy Hand In Europe After War

Superintendent L. F. Chapman of State Prison, in an address before the Rotary Club said: "There would be no peace today if the world were ruled by the weak. I am sure we will not—there would be an announcement to this effect: 'The Big Four will handle the world things.'"

China, Russia, England and United States; there will be no Army or Navy except ours; you do what we tell you to do."

Mr. Chapman continued, "When we catch mobsters we don't sit down and have a conference with them. We tell them how long they will be put in jail and when to do; and we disarm them. Why not do international gangsters the same way?"

Mr. Chapman drew an analogy between the flight of an eagle and the ever widening sphere of influence of the American. He pointed out that the "freedom of the world" people in the Declaration of Independence was freedom from oppressive government.

He asked extended to influence over the American continent to guarantee these rights to us. In 1898 we waged a war with Spain to free Cuba and Haiti. The freedom of Puerto Rico and the Philippines had been promised when these lands are ready for self government.

The first world war, an American influence and ideas to Europe, but we returned home and failed to enforce the peace. This war today is carrying American influence over seven seas to all the continents. This time we must have peace through victory."

"After the war," continued Mr. Chapman, "we will have a peace conference, no treaty, no League of Nations. Why should we sign a treaty with Hitler, Mussolini and Hirohito, who will not honor it. The only peace which we can force is an armed peace in which international brigades are used ruthlessly as the American police handle gangsters. All arms should be in control of the big four, China, Russia, Britain and America. No treaty should be allowed to possess armaments or armament factories."

Mr. Chapman thinks that if such a peace were enforced for three generations that a just philosophy would flourish and an ideal society would be realized.

## "V" Mail Stationery At Local Post Office

Postmaster George Farnall has received the new "V" mail stationery and says he has already passed out quite a few sheets of the stationery. The stationery is designed for the purpose of sending letters to men in overseas service and it is expected to save much valuable shipping space.

The letter is photographed and the film shipped to the overseas post where it is developed and sent back to the post office. The letter is so small that hundreds of letters can be sent in this manner in a box you could hold in your hand.

## Heat Reaches 99 Degrees Here: High Since 1931

While local residents mopped their brows and sighed and bemoaned the first attempt to keep cool, the sweltering heat wave of the past week sent the mercury towering to 99 degrees, just 1 degree less than the record mark, according to officials at the Everglades Experiment Station here. During the eighteen years since the government established a weather bureau here the thermometer has exceeded 99 degrees only three times. In July 1931 the high peak of 100 was reached, and on two previous occasions it has reached 99. This week has been hot, ranging from 96 to 99 on Tuesday night. That night, a minimum of 73 was recorded. This wide variance is caused by the fundamental characteristic of the marsh land radiating the heat quicker than any other types of soil. During the 18 years of recordings, the average maximum for July has been 94.9 degrees, the minimum 70.6. The recordings are always made in the regulation, well ventilated shelter.

Under conditions this year have been most unusual, so far. The heaviest rainfall ever recorded for the month of June was reached with 24.1 inches. September has long been conceded as the rainy month, but since June was so rainy, it is not considered likely that there will be much rain in September. Old observers recall that hurricanes usually "brew" during intense heat, so if this is a dependable indication, we will likely be marked for a big blow this year.

## TO ATTEND BOMB SCHOOL IN MIAMI

General Albert H. Blanding of the Action Division of the State Department, Florida, has designated Dr. Roy A. Bair, Dr. Thomas Breger and George Yon as representatives of the United States Defense Council to attend the Bomb Reconnaissance Agents School in Miami on July 23 and 24.

Similar schools were held in Tampa, and because of the grave responsibility which a Bomb Reconnaissance Agent assumes, possibly involving the safety of the nation, these schools have been carefully selected on the merits of their extensive study of incendiary bombs and explosives, as well as their quick precision.

These men have been foremost among the instructors in the local Defense Schools during the past few weeks, and their ability as teachers has been well appreciated. On their return home they will be qualified to train the next group of students to the entire Bomb Squad.

Mr. and Mrs. C. E. Riedel and Mr. and Mrs. A. Redman were brought out on an extended vacation trip.

## Famous Mystery Unsolved Is The Gator Dead Or Not?

On Monday afternoon around four o'clock the citizens of Belle Glade were rudely awakened by the dying yelp of one of the Glades' famous mangrove mangroves, who while peacefully playing the cooling waters of the Hillsboro Canal at the bridge, was suddenly and mysteriously slumped into said Canal, drowned and devoured by an amphibious Gator (of whom it is said "they had just seen soon as a dog as a nigger"). The aroused populace stood for more than an hour on the Canal bank and, bridle, patiently awaiting for the Gator to come up and pick its teeth. Eventually Mr. Gator came to the surface and tolerantly gazed at the bulgy eyed populace as much as to say, "well, here I was, and you thought I was help me with the dog, but there, just went enough to go round."

A case of the crowd brought about a case of the crowd. Mr. Gator was decided to hold in the water for the next morning, said the citizens for one of Belle Glades famous canines. So, guns were fired and the Gator was seen to be brought out and after (Continued on page 2)

## LETTERS FROM OUR BOYS WHO FIGHT AND WRITE

DON W. HERRIN,  
The following cablegram from London, England was received here Monday morning.  
Belle Glade Herald,  
Belle Glade, Fla.  
Hello to all. I'm in England and doing fine. Everyone writes me at APO 887 New York City.  
Don W. Herrin.

We're sure all our friends are happy to hear from him and will take time to drop him a line now and then.  
THOMAS E. LOWERY  
Twenty-nine men were sent to Jacksonville July 16 for final examination and enlistment in the Navy and among them was Thomas Lowery of Belle Glade. He was enlisted in the Construction Battalion of the Navy which will be opened over 125 new.

I have been pushed off on the stock guard locked in the stockade for a week to guard the d-rats. Have to walk Post for 6 hours without even a cigarette and can't stop walking. Why they didn't put wheels on these guns is more than I can see. But we do have 12 hours off to sleep if you can make it for a 6-hour stretch and don't think we don't sleep. They brought our mail out about ten minutes ago and I have about memorized your letter already.

If I can get in the Air Corps I think I will stay in after we kick h— out of the Japs and Germans.  
Well about all my squaws have with me but there are quite a few around here that are an answer to a soldier's prayer.  
It is hot as hell here. Just got a letter from Carroll Keesee (Belle Glade) in the air corps in fine. I will stop, for a while, and do some sleeping. Will write more next time. I really enjoyed your letter, just write more often.

Mr. and Mrs. Hubert Chambers and children, Patsy and James, have returned from a visit to relatives in Anderson, S. C. They were accompanied by their nephew, Walter McClellan.

Mr. and Mrs. Hubert Chambers and children, Patsy and James, have returned from a visit to relatives in Anderson, S. C. They were accompanied by their nephew, Walter McClellan.

## Let's Play It Safe

**VOLUNTARY** codes and conservation slogans have little effect on the American people. We do not mean to be unpatriotic—we just do not want anyone or anything to interfere with our usual way of living, whether it be three teaspoons of sugar in our coffee or driving 50 or 60 miles an hour. Always we are thinking that our (just one) doing it will make no difference.

All of us love our country, all of us want our country to be victorious, but also many of us seem to love our sugar and our automobiles with their speed.

Sure we are all mixed up as to this regulation and that. Sure we hear conflicting reports over rationing and read contradictory dispatches in the newspapers and hear them on the radio, but as long as we are mixed up, it might be just as well for us to play safe in the way we conduct ourselves in things that might help to win the war sooner.

## The Truth About the Airlines

A good many people seem to have gained the impression that the government has taken over the commercial airlines—and that you can't travel by air unless you are armed with a Federally-issued priority certificate.

Fortunately, for the welfare of the country, there is no truth in that. The fact is that the airlines are still under private ownership and private operation. They have turned over a considerable number of their transports to the military services—but they are still operating 165 airplanes in scheduled service.

If you wish to travel by air you can still do so, precisely as you can send your letters and your express by air. It is obvious that not every plane can be filled to the limit with blueprints, war cargo or big-shot officials. The planes run on strict schedules, and there is a perfectly free to make a reservation. There may, of course, be instances when all the seats are taken. But that has happened in the past, and the situation is not greatly different now. While some lesser routes have been abandoned for the duration, the transports are still flying their principal routes and will continue to fly.

The fact that transport service is still available to civilians is a tribute to the airlines' efficiency. In a recent 7-day period, for example, it was anticipated that 70 planes would have to perform work for the Army exclusively. In actuality, only 29 planes were so engaged—because those 29 planes were operated with so little delay and waste that they did the entire schedule job.

Naturally, war needs come first with the airlines, as with all other businesses. But the rumors that the airlines are now a government operation, and can no longer serve civilians, are completely unfounded. America's fine system of private commercial air transport is not hamstrung and is serving the nation as never before.

## Inflation—(In One-cylinder words)

Inflation, as described in the dictionary, is a disproportionate and relatively sharp and sudden increase in the quantity of money or credit, or both, relative to the amount of exchange business. In accordance with the law of quantity theory of money, inflation always produces a rise in the price level.

In a simpler language and applied to the present situation, inflation is caused by a shortage of consumer goods and a tremendous increase in the amount of money paid out in wages.

For the time being, we have stopped making automobiles, refrigerators, bicycles and other useful, peace-time products that we could buy and use any time, and have concentrated on the production of warplanes, tanks, guns, bombs and other things that are useful only in wartime. We have stopped making the things we want and are making the things we must have to win the war.

Thousands of formerly unemployed now have jobs. Added thousands are making more money than they ever made before. So, with more money in our pockets to spend and less to spend it on, either the value of money is reduced or the value of the goods has increased—figure it either way—the result is the same. They both mean inflation to the man on the street.

The danger in inflation lies in the fact that when it is in operation, all the money we earn and all the money we have saved is worth less to us and to everyone else. Inflation is just as simple as that and just as dangerous. That is why the manufacturers of the country are so interested in combating it.

## Invincible Production Machine

Americans may well be proud of their industrial war machine and confident that it will enable the Allied Nations to triumph in the end. As one newspaper correspondent, returning from a "Production for Victory" tour, sponsored by the National Association of Manufacturers, puts it, "American industry is so huge and so powerful, both actually and potentially, that nothing can prevent it from swamping the Axis."

"Throughout the land, a mighty revolution is in progress," says this correspondent. "American industry is creating the ploughshares of peace—the electric refrigerator, the toaster and the washing machines—into the swords of total war, planes, tanks and high explosive bombs."

While industry did not want this total conversion to war production any more than the public wanted to exchange their cars for tanks, the colossus is now at work and results of the gigantic war effort are discernible in every manufacturing center in the country.

## THE NECESSARY KEYSTONE

On an all-out war production basis, American industry has not only met and passed the "fantastic" production schedules laid down by the government, but is beating the combined Axis production in terms of planes, guns, tanks and other essential fighting equipment.

Despite tremendous obstacles, which industry already is surmounting, and despite the shortage of certain vital materials, which ingenuity on the part of industry and sacrifice on the part of the population can overcome, American industry is doing its share of the job and as this correspondent points out, "The picture of Arsenal of Democracy at work is one from which every lover of freedom may draw courage and strength."

By DICK LEFILS

## Prob'ly Facts

We may not be making such a showing right at the present as to winning this war. But there's one thing about it we're learning something about our geography as well as finding out a few of the cities that we'd never heard of before.

Take Cologne for instance. I was reading in the papers awhile back where the British had destroyed it until there was hardly anything left of it but a shell. Right off the bat I thought they had done a great deed for I always had an idea that staff had a little to munch for anyone to use it in this day and time. But after reading on further and stretching the end of my small category of a mind I came to the conclusion that the Cologne they had been dealing with was a city, and in the meantime was the father of most all our colonies, which after finding that out I still think the boys down an awful good job.

The Cologne that I always knew of before coming such a student in geography the last few months, was a little better than the country folks usually bought from some of our general merchants on Saturday nights, or in the early part of a Saturday afternoon when we went to town, using it when we thought we had a heavy-duty staked out somewhere.

In using it we didn't try to kill the scent of it. In fact, the

From time to time the WPB has issued orders stopping the manufacture of things we use every day. Where the WPB had to choose between allotting materials for civilian conveniences and war necessities, they chose the war necessities. That's what we all want.

A look at the list of things which the WPB has stopped production in the past six months makes us realize that war is striking right at our homes. Here are some of them: Radios, sewing machines, vacuum cleaners, lawn mowers, domestic oil burners, electric ranges, electrical appliances, domestic washing machines and ironers and outdoor motors.

And here's another list of everyday items on which production has been sharply cut down: Baby carriages, bedding and mattresses, bicycles, cutlery, caskets and burial vaults, domestic ice refrigerators, fountain pens and mechanical pencils, kitchen

Sugar for Canning  
 It takes sorting and straightening out to get any program running smoothly. . . . And it takes time to iron out the wrinkles in sugar rationing. Here are some facts that may be helpful to home canners.

The local rationing boards are instructed to allow sugar for canning fruit on the basis of one pound for every four quarts of finished fruit. They are also instructed to consider each application individually before issuing a sugar purchase certificate.

Here are some factors the boards must consider in deciding how much sugar each applicant is allowed: Size of the family, family's requirements, availability of fruit, canning practices of the locality, amount of canned fruit on hand, time elapsing which canning is to be done, number of quarts canned last year. Those things are variable.

Here are some invariable factors: This sugar must be used only for thin-syrup canning of fruits and berries; the amount of sugar you are allowed is limited only by the quantity of fruit and berries you can; there is no flat allotment for every applicant; no sugar is allowed for canning vegetables; you can go back for more sugar as many times as you need; you don't have to have your fruit when you get your sugar; if you feel the amount of sugar you are allowed is insufficient, appeal to your state OPA Director.

## South Bay Baptist Attend Convention

A large representative group from the South Bay Baptist church attended the Baptist convention at Ft. Pierce last week. The South Bay church was found to be the outstanding church in the district from the standpoint of membership and attendance and received 132 out of the 204 awards presented at the meeting.

Rev. S. B. Jordan of Canal Point, formerly pastor of the South Bay church, presided. Speakers from this area were Rev. E. J. Dillard of Belle Glade, Mrs. Evelyn Jordan of the St. St. Paul Elementary school faculty who spoke on Bible teachings and Rev. Capell who had charge of the forty hour upper was held at the Civic center.

Those attending from South Bay included Mr. and Mrs. W. C. Allen, Mae and Jane Allen, Mrs. Maude Hartline, Mrs. E. H. Griner, Loretta Griner, Inez and Dorothy Griner, Rudra and Erna Ellison, Doris, Verna and Willie Frank Martin, Mrs. A. B. Barnes, Mrs. C. J. Brown, Mrs. S. M. McCallister, Helen and Ruth Ratley, Mrs. W. M. Jeffries, Mary Elizabeth Crocker and Mr. and Mrs. J. W. Crocker and son, Jack, of Pahokee.

## LEGAL NOTICES

**NOTICE OF INTENTION TO REVOKE FIDELITY NAME**  
 Notice is hereby given that the undersigned, in the County of Palm Beach, State of Florida, Chapter 19322, Laws of Florida, Acts of 1931, will cause the Clerk of the Circuit Court, in and for said County, to file and record upon receipt of proof of publication of this notice, the following name to wit:

**BELLE GLADE INSURANCE AGENCY, AGENT**  
 Under which I am engaged in business at Belle Glade, Florida. That the party interested in said business is as follows: Sara Lee Green, Belle Glade, County of Palm Beach, Florida, July 23, 1942. Firm Name: Belle Glade Insurance Agency, Agent.

**NOTICE**  
 NOTICE IS HEREBY GIVEN THAT THE COMMISSION OF THE TOWN OF BELLE GLADE, FLORIDA, will hold a public hearing on July 24, 1942, at 8:30 p. m., in Eastern Room of the City Hall, for the purpose of equalizing the assessments of real estate and personal property lying in the Town of Belle Glade, Florida, subject to taxation for the year 1942. Any person desiring to contest or object to said assessment may be heard at such assessment may be heard at such assessment.

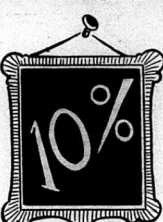

Witness my hand as Town Clerk of the Town of Belle Glade, Florida, this 23rd day of July, 1942, at 8:30 p. m., in Eastern Room of the City Hall, July 23, 1942.  
 C. A. REEDER, Town Clerk  
 Published July 23, 24, 1942.

**NORTHERN ASSOCIATION OF BOARD OF EQUALIZATION**  
 Notice is hereby given that the Town Council of the Town of Belle Glade, Florida, will hold a public hearing on Tuesday, the 28th day of July, 1942, at 8:30 p. m., in Eastern Room of the City Hall, for the purpose of equalizing the assessments of real and personal property lying in the Town of Belle Glade, Florida, subject to taxation for the year 1942. Any person desiring to contest or object to said assessment may be heard at such assessment may be heard at such assessment.

Witness my hand as Town Clerk of the Town of Belle Glade, Florida, this 23rd day of July, 1942, at 8:30 p. m., in Eastern Room of the City Hall, July 23, 1942.

leg. Reels argument was that a Magnum bullet made such a large hole in the Gators head that his brains fell out before he had time to think to turn over and wave goodbye. The jury which was composed of some of Belle Glade's best jury talent, after seriously considering all the evidence in the case, split fifty-fifty on the decision. It was then decided to let Judge Tedder go down in the Canal and view the Corpse, if any, and render his own decision. The Judge went down, but at the time of going to press he had not come up, so it looks like he might be hibernating again. Your Saurian Reporter

Social Happenings

NELL SCULLEN, EDITOR

PHONE 44-W

Mr. and Mrs. Clyde B. Miller of Jacksonville, Ala. are here to visit the latter's parents, Mr. and Mrs. Walter Greer. Mrs. Leonard Starling and son, LeRoy, of Key West, are also here visiting her parents, Mr. and Mrs. Greer.

Mrs. Olive Boone has gone to visit her grand parents and other relatives in Cincinnati and other places in Ohio.

John Harris has returned from a vacation trip spent in North Carolina.

An all day picnic and fishing party was held at Fishers Creek Sunday. Included in the party were Mr. and Mrs. Gerald Jacob and Mrs. S. J. Jacob of Lake Worth, Mr. and Mrs. Jesse Aiy, Mr. and Mrs. F. T. Smith and children, John and Billy Don, Mrs. Florence Smith and Merle and L. R. Smith.

J. W. Ives of Miami spent Monday and Tuesday here looking over his business interests.

R. L. Hatcher was home for the week end from Boca Raton. He states that any number of Belle Glade and Palmetto men are employed on the defense project at that point.

Mr. and Mrs. Carl Payberg and daughter, Sandra, of Miami

Beach were the weekend visitors at the home of Mr. and Mrs. N. T. Nielson.

Sgt. Paul Tillery has been here visiting old friends. He is stationed at Ft. Benning, Ga., and states that army life is fun and wishes everyone could get into the army.

Mrs. J. B. Bailey and Jimmy Bailey left Sunday for Wauchula to visit her mother, Mrs. T. M. Bryan.

Carl Waller, nephew of Mr. and Mrs. D. L. Mobley left last week for Tampa to enlist in the Naval Reserve.

Curtis Cherry has completed the course in C. P. T. training at Gainesville and passed the tests to become an instructor pilot. After a short visit at home he is returning to Gainesville to act as instructor.

Mr. and Mrs. Robert Y. Creech have returned from a two months' sojourn in Hot Springs, Ark. They were accompanied home by Mr. and Mrs. Robert Creech, Jr. of Chicago who joined them at Hot Springs.

Mrs. Mike A. Murphy has gone to Atlanta, Ga., for a visit.

Mr. and Mrs. Steve R. Johnson and baby of Fort Pierce are the guests of Mr. and Mrs. Sidney K. Smith.

Paul Tillery has returned to Camp Blauding after visiting his brother, Hubert Tillery.

Mr. and Mrs. C. W. Crews and Mr. and Mrs. W. S. Ingram have recently bought new homes in Northmoor and moved their families there.

William C. Lord has gone to North Carolina to spend the remainder of the summer at mountaintop resorts.

Mr. and Mrs. Francis Harris have gone on their vacation trip which will include Miami and the Keys.

Miss Margaret Haines, Ruth West, Mary Elizabeth Hooker and Walter Seater, Jr. expect to attend camp of the Brethren church at Avon Park next week.

Mrs. Winfield Mosley will leave Monday for Coral Gables where she will take a summer course at the University of Miami.

Mr. and Mrs. Ernest VanLandingham and son, Bobby, have returned from a vacation trip spent in the mountain resorts of North Carolina.

Mr. and Mrs. Milton Campbell and daughter, Mary-Marguerite, have gone to visit his mother in Plains, Ga.

Mrs. J. Z. Boone of Wauchula is visiting her sons, Clive and William Boone.

ENTERTAINS AT SHOWER Mrs. Francis Harris and Mrs. Tony Stein entertained recently at the home of Mrs. Harris, honoring Mrs. Lester Clark with a stork shower.

Mrs. Casper VanLandingham and Mrs. Louis Solomon were awarded the guest prizes. The gifts were presented in a basinet. Dainty refreshments were served by the hostesses.

The guest list included Mrs. Henry Collins, Mrs. Dooley, Mrs. Junius Harris, Mrs. J. Winfield Mosley, Mrs. Luster Jones, Mrs. N. T. Taylor, Miss Elizabeth Cunningham, Miss Loretta Fain, Mrs. Grady

Edwards, Mrs. John Kirk, Mrs. George Toher, Mrs. William Cato and Miss Gloria Ingram.

SOUTH BAY LAKE HARBOR BEAN CITY

Mr. and Mrs. M. D. Hardy and family have returned from a vacation visit among relatives in North Florida and Alabama. Before their return they visited their son, Eugene Hardy, who is in naval air training at Corpus Christi, Texas. Their son, Laymon, plans to enter some branch of the service in the near future.

Mr. and Mrs. Hovas Prevatt of Bean City is living at Hobe Sound where Mr. Prevatt is now employed.

Mr. and Mrs. Emory Mosley and children of Fort Meade are guests of Mr. and Mrs. Fred Mosley in Bean City.

Mrs. C. A. Armstrong and daughter, Norma Jean, left last week to visit with Mr. and Mrs. Roy Green, Jr., at Brunswick, Ga. Lieut. and Mrs. Green have recently been living at Brownwood, Texas but will be stationed at Colorado Springs in the future.

Mrs. Arthur Harrell of Belle Glade visited her father, J. R. Wells and other relatives at Bean City Friday.

Mrs. Frank Prevatt is leaving for Ft. Lauderdale to join her husband who is employed there.

Billy Rogers made a trip to New York on business for the South Bay Growers and Distributors, leaving here the last of the week.

Mrs. H. C. Jones and daughters, Claire, Alice and Sandra, of Ft. Lauderdale are spending a few days with her parents, Mr. and Mrs. H. C. Willis.

Mr. and Mrs. Alvin Graff and two sons left recently for West Palm Beach where Mr. Graff is taking a workers course at the government school.

Mrs. F. W. Mutchler and three daughters, Marjorie, Carolyn and Jackie, have returned from a two weeks visit in Ocala with Mrs. C. E. Forbes and family and are attending the Home Demonstration and 4-H Camps at Lake Worth.

Mr. and Mrs. Jerry Jacobs and mother of Lake Worth were week end guests of Mr. and Mrs. George A. Yon of South Bay and Mr. and Mrs. F. Smith of Belle Glade.

A. O. Walker accompanied by Forrest Norton and Berline Walker, left Monday for Baltimore to go through the clinic at Johns Hopkins.

Eugene Goodland is home from the army air force for a month's furlough.

Jesse Barnes was out from Lake Worth to visit his parents, Mr. and Mrs. A. B. Barnes on Saturday.

Ward Burt of Morrison Field was the week end guest of the L. O. Ratley family.

Mr. and Mrs. E. M. Willard, daughter, Barbara Jean, Jean, Laura Crow and house guest, Mrs. Komora of Cleveland, O., took Sunday dinner with Mr. and Mrs. C. C. Hutson in West Palm Beach and enjoyed a beach picnic in the afternoon.

Mr. and Mrs. E. M. VanLandingham and children, of Belle Glade who, were recently returned from a vacation in So Carolina were the Sunday dinner guests of Mr. and Mrs. H. C. Willis.

Mrs. Forrest Norton and son left Monday to visit her sister in Fort Lauderdale.

Mrs. Herbert Marlowe, Jr., and son, of Key West, who has been visiting her mother in Bean City, is now the guest of her Uncle and Aunt, Mr. and Mrs. S. M. McAllister.

More Cold Facts

Grandma knew her "groceries" all right. She wrapped fruits and vegetables in wet cloths, and, later modern science tells us why. The moisture and vitamins in the tables need mild cold combined with high humidity to keep them fresh. Once they're wilted they've lost most of their vitamins—and, of course, their healthfulness. Which explains why we should store them in the refrigerator until they're used.

Fresh vegetables, like carrots, radishes, beets and such, should be thoroughly cleaned before refrigerating, and the stems and leafy portions should be removed. Don't shell peas and lima or bush cut beans, until ready to use. They lose a lot of vitamins. This applies to all vegetables: cook only as much as you think you need. Leftovers lose a lot of vitamins.

Berries shouldn't be washed until just before serving. If they are very ripe when you buy them, pick them (luckily, you, if you have your own berries, will pick them better if placed on a platter and lightly covered with waxed paper. Cantaloupes, pineapples and other fruits with a strong flavor should be chilled in the humidor before crispening. If you have open, otherwise, wrap them in several thicknesses of waxed paper and put them on next to bottom shelf of your refrigerator. That's where tomatoes, berries and grapes belong, too.

Should everything be kept in the refrigerator? No, not everything, but probably more than you'd imagine. Bread, for example, will stay fresh longer. Shelled nuts won't go rancid so quickly. Chocolate keeps better too, particularly in hot weather—the oil won't melt and spoil it. But never put bananas in the refrigerator—green ones become indigestible and ripe ones are ruined by even moderate cold.

MEAT! Meat! With Blue-Topping Spinach with Macaroni and Swiss Hot Biscuits - Butter New Orleans - Boudin Berries and Cakes

\*Heat Pie with Top Topping Recipe: Dice in medium sized pieces, 2 medium sized carrots and 2 stalks celery. Parboil in about 2 cups of water for 10 minutes. Drain and add 1/2 cup butter, then reduce heat for remainder of time. Chop 1 medium onion and 1/2 cup brown in 4 tablespoons fat. Add 3/4 cup milk, cooked until thick. Add 1/2 cup onion, brown. Thicken the liquid from cooking carrots with 1/2 cup flour, which has been mixed with 2 tablespoons water. Salt and pepper to taste. Heat 1/2 cup flour in a casserole. Cook meat 10 minutes. Add to the flour. Bake 15 minutes.

Next Week: Summer Time Meats.

Mrs. H. C. Jones, of South Bay and granddaughter of Mr. and Mrs. H. C. Willis, celebrated her sixth birthday Tuesday at the Willis home. Guests were Lemar and Norma Jean Livell, Barbara Jean Willis, Carol, Bobby, Sue and Bill VanLandingham, Frankie Willis and Walter Mosley.

"Truth" Is Subject Of Christ Scientist

"Truth" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, July 26.

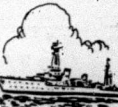

The Golden Text is: The word of God is quick, and powerful, and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart." (Hebrews 4:12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let us be true in thy truth, and teach me: All the paths of the Lord are mercy and truth unto such as keep his covenant and his testimonies" (Ps. 25:10).

The Lesson-Sermon also includes the following passage from the Christian Science text book, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Corporal sense, or error, may seem to hide Truth

What You Buy With WAR BONDS

Navy Cruisers are built in two classes, light and heavy. The latter displacing about 10,000 tons. Our navy has about an equal number of light and heavy Cruisers, the 10,000 ton Cruiser costing approximately \$20,000,000. Many Cruisers are under construction and many more are needed.

To pay for these ships and powerful ships with their heavy guns and armament we must buy War Bonds. Citizens of a large town in a given community, working in unity, could buy one of these ships for the Navy if they put at least 10 percent of their income in War Bonds every pay day.

The above map of Florida shows the War Bond quotas, by counties, for the month of July, 1942. Total War Bond quota for the state is \$7,842,000. With the National quota total placed at a billion dollars, the nation goes into high gear in its support of the War financing and to give our fighting forces adequate instruments of war which will bring ultimate Victory. American Soldiers, Sailors, Marines and Airmen are on every front. They are giving 100 percent for their country. What are we doing here on the home front? Are we lending at least ten percent of income to help them? It's very little. But to fight this war successfully our country needs a billion dollars in War Bonds every month from the People's Let's Go, America.

HERALD COLUMNIST  
(Continued from page 1)  
and agreeable it is to romp and play in the mountains. After a week in the Army I began to understand why pack burros always look so sad.  
An observation car follows us as we make our merry way into the mountains and kindly attendants eagerly await the opportunity to care for those of us who fall and fall by the wayside. Jumping from their jeep, they grab you by the leg or arm and drag you to within throwing distance of the car where willing hands catch you in midair and toss you in the back seat.  
Boys who fall out in a march are treated very well. They only get six months in the guard house and do not have to stand court martial. Arriving in camp, you are taken to the infirmary for an oil and grease job.  
At the infirmary patients are divided into two classes: (1) those who have colds and (2) those who have athlete's foot. If you have a cold you get your feet swabbed with iodine. If you have athlete's foot you get your throat swabbed with iodine. And no matter what you have, you get castor oil and a few miscellaneous vaccinations.  
I am very popular at the infirmary. I told them that I had both a cold and athlete's foot. What I've really got is gastric ulcers, but a guy soon learns to keep his mouth shut in the Army. One guy made the mistake of insisting that he didn't have either a cold or athlete's foot and they promptly sent the poor dumb cluck to the guard house for impersonating an officer.  
Every few days you get an afternoon off and go to town where you mill up and down the main stem and push each other off the sidewalk. Or if you happen to prefer the great open spaces you can go for a walk in the mountains where you can chase butterflies and pick wild flowers.  
Well, I guess that's about all for now, but I just wanted you to know that I was makin' out all right and I hope you're the same.  
Love and kisses  
Jerry

FOR YOUR CAR, TOO!

You can give your car the same protection against wear that the Army gives many of its "Jeeps", tanks and other vehicles. Just see your nearby Sinclair Dealer. He has Sinclair lubricants of the same quality used by the U. S. Army.

To save wear on your engine, ask for Sinclair Opaline Motor Oil. Opaline stands up better and lasts longer because it is de-waxed and de-jellied. Have your Sinclair Dealer drain and refill your crankcase with Opaline every 1,000 miles.

### Bowling News

With a blind man running the bowling alley at the Legion Hall "blind bowling" has become a fad with habitués and some find this game better than the one they do using all unimpaired faculties with which they are endowed.

A sheet is suspended by a wire in front of the player so that he cannot see the pins. He determines the position of the standing pins through a chart and whams away, with the result that most persons find more of the pins down.

Mr. Shaw, manager of the alleys, is 93 per cent blind and came to Belle Glade from the local Lions Club and the Florida Council for Aid to the Blind.

Mr. Shaw sells you cigars, cigarettes, cold drinks, chewing gum and makes change. His counter is arranged so that he can pick out whatever article you call for by knowing its location on the counter. He can make change also as quickly as the ordinary cashier.

Mr. Shaw also takes on the average bowler, too, evenly, and has bowled as high as 179. It is interesting to see a blind man make a monkey of a 190 pound six foot bowler.

Lion club members rolled their second series of games on Wednesday night and again Sam Fleming and his team came out at the little end of the score. The team composed of W. E. Boone, Ralph Kirk, and Jim Howington put the skills under Sam's team composed of himself, Emmett Roberts and Terrell Cline.

### GLADES WOMEN

(Continued from page 1)  
communities at the Junior Camp.

Owing to the fact that the annual Short Course at Tallahassee was called off this year due to transportation difficulties in keeping the war effort at top speed, an effort is being made to bring the short course to the various counties through the medium of the camp. Two state campers have been sent to Tallahassee, Miss Anna Mae Sikes, state nutritionist, and Mrs. Juanita Browning, who is in charge of music and recreation at both camps.

Miss Sikes presented a demonstration on sugar substitutes in cooking and baking on Tuesday. The product demonstrated was soft Honey Cake, using honey in place of sugar. Leaflets of receipts using honey and syrup can be obtained which have been worked out by the extension service were given out to all present. Wednesday morning Miss Sikes presented a demonstration on the one meal dish, "Noodles and Hamburger" as an example of ways of saving fuel, time and strength in preparation and the extending of satisfying flavors of more expensive foods. She also discussed proper methods of cooking both tender and less tender cuts of meat to re-flavor and food value, emphasizing the fact that all protein foods must be cooked at low temperatures. Thursday she discussed proper methods of cooking poultry.

Mrs. Browning assisted with vespers and the recreational program during the women's camp and Wednesday afternoon she discussed the points to observe in the leadership of community sings and pointed out the variety of types of songs suitable for community sings with illustrations of each type.

Local leaders also assisted in the program. County Agent M. U. Mounts discussed food production and the Victory garden. Miss Elizabeth Howell and Mrs. Artrid Reindel, county school nurses, gave one period each day at camp to appropriate talks and demonstrations on proper health habits. Mrs. Alice Muthler was in charge of the handicraft group and Mrs. Emily Dietrich talked on house furnishings and clothing for the family. Mrs. G. J. Barstow had charge of vespers.

The Lake Worth broadcasting station WWPQ gave time Wednesday to the camp program. Mrs. Barris, Mrs. Mina Holland, County Council President, Mrs. G. S. Barstow, past State and County Council President, who talked on the program and activities of the camp and council, and Miss Sikes, who discussed her program in food preparation in relation to the goal of making America strong. Camp leaders and 4-H girls will be on the air over this station Friday at 1:30, Saturday at 9:15, Monday at 1:45 and Tuesday at 1:45.

Thursday was visitors day at camp and delegations were present from all clubs in the county. A picnic luncheon was served at noon for the visitors. The regular program was carried on during the forenoon and the afternoon to a session of the Senior County Council and annual Clothing Revue.

### IN THE ARMY NOW

(Continued From Page 1)  
that will never be denied. Nobody will ever say that I haven't talked a good game.

It looks like the soldiers are going to have to organize some sort of a "set-up" to keep the morale of civilians. Several of the boys who have been on leave and returned report that the civilians are the ones that need some encouragement. I'll seem funny not to have all the sugar, gasoline, etc., that you want. After a furlough maybe it'll be good to get back in one of Uncle Sam's mess halls and ride in one of his "jeeps" with no tire or gasoline worries.

### Home Demonstration Club Has Meeting

The regular meeting of the Home Demonstration Club was held at the home of Mrs. M. M. Sabiston with Mrs. Tharvold Neilson, vice president, presiding in the absence of Mrs. Ralph Kidder.

Ceiling prices was selected for discussion at the next meeting on August 21.

Mrs. Roy A. Bair was in charge of the program and gave many suggestions for use of honey and fruits as sugar substitutes.

Also rules for fire prevention in the home were read. Mrs. Edith Y. Barrus, home demonstration agent of Palm Beach county, attended and advised that every fire prevention be observed and building material is now restricted, and if a house

burns the owner will be without a house for the duration even though he has it covered with insurance.

The hostess served refreshments at the conclusion of the meeting. Others attending were Mrs. Jay O. Jamieson, Mrs. Joe Freudenthal, Mrs. Hugh J. Bratley, Mrs. Thomas Bregger, Mrs. Howard Haney, Mrs. J. H. Nelson and Mrs. James Scullen.

Farmer's Cooperate!

With the Food for Freedom Program

Put Your Tractors and Machines In First Class Condition Immediately

- (1)—CHECK YOUR MACHINES
- (2)—ORDER NECESSARY PARTS IMMEDIATELY
- (3)—USE ONLY GENUINE PARTS

Our repair bins are well stocked with genuine IHC repair parts—made only for International trucks, tractors and farm equipment. Each part is made as an individual unit of the machine for which it is intended; therefore it fits, wears, and is as durable as the original part itself.

Keep this superior service in mind when selecting farm operating equipment. Invest in time-tested machines that are backed by the quick, convenient service rendered by International Harvester dealers.
